

## Purpose

AutoPower is a mobile battery combined. Its purpose is to replace diesel-powered generators by providing battery-powered AC-power in areas that lack the adequate power supply. AutoPower can be delivered with or without a registrable trailer

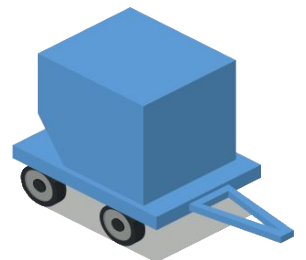

## Container

Custom Container 2.4 x 1.6 x 1.6

or

ISO 10' Container 2.9 x 2.4 x 2.6

## Remote Control & Monitoring

AutoPower will be delivered with standalone software where remote control, monitoring, and service is possible.

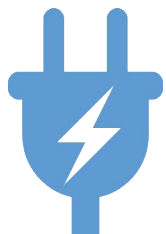

No Noise  
Pollution

Replace  
Diesel  
Generator

RFID User  
Identification

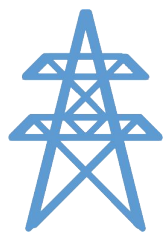

## AC-Output

Network (TN) 3-phase 50Hz 400VAC

Max. Output Power 170kW

Outlet Power Distribution Cabinet

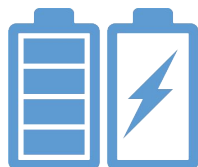

## AC-Input

Network (TN) 3-phase 50Hz 400VAC

Max. Charging power 60kW

Connection Type 125 amp CCE

## Battery System

Energy Capacity up to 1000kWh

Battery Cell Technology Li-ion

Cycle Life Up to 8k cycles @ 100% DoD

## Temp. Mgmt.

Active Cell Monitoring

Dust Proof Ventilation & Air Conditioning

Thermostat Safe Operating Temperature

## Comm.

4G Connectivity

Secure Protocol
